GUARANTEE

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper aftercare, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

Shipping Methods:

Shipments will be forwarded as purchasers direct, but in the absence of instructions we will use our best judgment and forward plants by shortest and safest route.

Quantity Rates:

When you order less than five plants the each price prevails. Take advantage of the quantity rates by ordering five or more plants of the same variety and size. This will entitle you to the ten rate. When ordering thirty plants of the same variety and size the hundred rate applies.

Deliveries:

During the planting seasons our trucks frequently pass most points within a radius of twenty-five miles from Westfield. Deliveries will be made at no additional charge within this radius when they may be incorporated on our regular trips. There will be a charge for special delivery service and long distance truck delivery can be arranged at actual cost.

To Our Customers

Landscape Department:

We maintain a staff of competent men, trained and experienced to assist home owners in selecting the proper plants for their proper locations. We shall be glad to submit plans and estimates, there being no obligation connected with this service, and no charge if plant material is purchased from us. Adams Landscape Service includes personal consultation on your grounds with these trained men whose only desire is to create beauty and a satisfied customer. You can place confidence in their suggestions as thousands of others have done before. Telephone for an appointment.

Service Department:

For the convenience of our customers we will supply an experienced and responsible planting service. These same experienced men are available during the summer and winter to do your trimming and spraying — a very essential operation for the appearance and well-being of any successful planting.

Post Office Address:

Please address all letters and communications to the Adams Nursery, Inc., Westfield, Massachusetts. We may be reached by telephone on the following exchanges:

Westfield 863

Springfield 6-0443

Shipping Season:

Our spring shipping season usually begins early in April and until about the first of June everything can be transplanted. Perennials and stock dug with a ball of earth can be moved at anytime during the summer. Our fall season starts with the digging of evergreens in August, followed in October by Deciduous trees and shrubs.

Terms:

We are glad to extend thirty day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10 or more. On first orders, for less than \$10 please send cash. Orders for C.O.D. shipment must be accompanied by one-third of the amount. Our guarantee is void on overdue accounts.

Prices:

Prices in this book supersede all previous lists and are subject to change without notice. Except for those retail orders received from within the free delivery twenty-five mile zone, prices are F.O.B. nursery.

**Trees and Shrubs—Properly arranged
can control and improve your Private Climate**

A tree placed in exactly the right spot west of your house or terrace can shield you from the hot afternoon sun in summer, and still let you have all the afternoon sun there is in winter. In summer it will reduce your home temperature as much as 10 degrees.

A hedge, or a few trees, placed in the right spot can shield off the cold winter wind. Therefore it is possible for trees to cut your fuel bills.

Trees not only give you cool shade, but actually manufacture coolness much as an air conditioning unit would. Leaves do not absorb the sun's rays and radiate heat, but by the process of respiration give off tremendous amounts of moisture to cool the atmosphere. This is the reason cities are always warmer than the country.

In the hot summer, shrub and foundation plants will greatly reduce heat radiation from the earth and make your home correspondingly cooler.

Hedges, shrub plantings, and lawns act the same way. In winter this cooling effect of vegetation stops because the trees and shrubs are leafless and the grass and evergreens dormant.

Evergreen Trimming and Spraying

To maintain health and preserve symmetry your evergreen plantings should be trimmed once a year preferably during the winter or summer months.

Spraying should be done as a preventive to avoid disease and infestation.

Our experienced men are properly equipped and at your service.

VIOLA PURPLE HEART

Originated by Adams Nursery, Inc.
 Introduced by Jackson and Perkins
 Plant Patent 671

Huge, velvety, deep violet-purple — twice as large as any you've ever seen! On fine long stems (7 to 8 inches), from spring all through summer and fall — grow them this year!

Flowers Up To 3 Inches Across

The vigorous plants do well in most any garden location, with a continuous supply of blooms. Imagine how the whole world will want these mammoth waved and frilly blooms, with their bright golden eyes and velvety sheen!

You'll want enough for plenty of cut flowers, as well as for garden display in several favorite spots. Be sure to have your plants in time. Blooms from May to December.

OLD DEERFIELD

LAWNSHRUB FERTILIZER

Analysis 6-5-5

A balanced plant food scientifically mixed for lawns, trees, shrubs and flowers. Contains soluble nitrogen and plant foods for use in early spring and then various organic fertilizers which feed the growing lawn or plants gradually and continuously throughout the summer.

Apply evenly on the lawn at the rate of five pounds per 100 square feet. Sow this fertilizer only when the grass is perfectly dry.

F AND B FERTILIZER

Analysis 6-12-6

This new product is in pellet form which permits it to be applied to your lawn either in wet or windy weather with no dust or danger of burning. Its organic nitrogen will not leach away and one lawn application in early spring should be sufficient for the summer.

50 lb. bag.....	\$4.00	500 lbs.....	\$ 36.00

VERMICULITE

This is a product having wonderful moisture absorbing qualities. It is recommended as a medium for starting flower and vegetable seeds. Excellent for storing bulbs and tubers or lightening the soil. Builds healthy lawns and ideal for mulching.

4 quart bag.....	\$.45	1/2 bushel bag.....	\$.85
2 bushel bag.....	\$1.85		

THE highly absorbent, weed-free, odorless, organic soil conditioner. Lightens heavy clay. Holds moisture and plant food near roots in sandy soils. Gives all soils a more loam-like texture. Grows stronger roots that develop lovelier plants. Excellent, too, for mulching and transplanting.
